Program Manager / Support Engineer

January 2023 – Present

Huntington Ingalls Industries

Virginia Beach, Virginia

- Direct large-scale operational and training programs supporting more than 600 events annually, requiring extensive planning, scheduling, coordination, and execution.
- Coordinate cross-functional teams across U.S. military, government, contractor, and international organizations to accomplish mission objectives.
- Manage personnel, operational readiness, and performance assessments while maintaining high organizational standards.
- Develop operational briefings and strategic plans supporting senior leadership decision-making.
- Oversee complex virtual training environments requiring real-time coordination, logistics management, and performance evaluation.
- Design and evaluate training programs that improve technical proficiency, teamwork, communication, and decision-making.
- Collaborate with multiple stakeholders to improve organizational effectiveness, readiness, and operational performance.

Military Analyst / Ballistic Missile Defense Fleet Synthetic Training November 2018 – December 2022

Subject Matter Expert

Valkyrie Enterprises

Virginia Beach, Virginia

- Conducted detailed performance analysis during complex training exercises and translated technical observations into actionable recommendations.
- Managed advanced evaluation environments requiring organization, precision, and analytical problem-solving.
- Researched performance trends and developed evaluation models supporting operational decision-making.
- Planned and coordinated large-scale training events involving multiple organizations and stakeholders.
- Designed realistic performance scenarios to assess decision-making under pressure.
- Produced comprehensive reports and strategic recommendations supporting leadership planning and readiness initiatives.

Chief Petty Officer (E-7), Fire Controlman

July 1997 – December 2018

United States Navy

Served over 21 years leading personnel, managing operations, developing training programs, and evaluating individual and team performance in high-tempo operational environments.

- Led and supervised teams ranging from 25 to more than 100 personnel.
- Evaluated individual performance, leadership potential, and technical proficiency to support promotion and development decisions.
- Planned, coordinated, and executed complex operational schedules and training events.
- Designed and instructed technical and leadership training for more than 400 U.S. and international personnel.
- Produced detailed operational reports and performance assessments for senior leadership.
- Managed compliance with quality assurance, safety, maintenance, and operational standards.
- Delivered executive-level presentations and operational briefings.
- Coordinated multi-unit exercises requiring logistics management, scheduling, and resource allocation.
- Mentored junior personnel while fostering accountability, teamwork, and professional development.
- Demonstrated effective decision-making in high-pressure, rapidly changing operational environments.
